## ACCIDENT AT RAIL CROSSING IS FATAL

Automobile Driven By Charles W.  
Griffin Center Township Trustee,  
Runs Into Train At Dunreith

### FAILS TO HEED WARNINGS

Injuries Sustained When Machine  
Turns Over Cause Death In An  
Hour—Successor To Be Named

Charles W. Griffin, age fifty-three years, new trustee of Center township, was fatally injured last Saturday afternoon at the Pennsylvania railroad crossing in Dunreith, when the automobile in which he was riding ran into a train as he was returning home from Newcastle.

The flagman was at the crossing, where the Pennsylvania railroad crossed the National Road, and signaled Mr. Griffin to stop, but he apparently did not see either the train or the flagman and his machine crashed head on into the coal car immediately back of the engine.

The automobile was hurled to one side and turned over and Mr. Griffin suffered internal injuries which resulted in his death about one hour later.

A dog which was a pet of Mr. Griffin's and was his almost constant companion, was riding in the machine at the time of the accident, but escaped without a scratch.

The deceased was elected trustee of Center township on the democratic ticket November 7, 1922, with a majority of eleven votes over his republican opponent Harvey M. Newhouse, losing the first precinct by twenty votes and winning the second one by thirty-one votes. Mr. Griffin took office January 1, this year.

The law provides that the county board of commissioners shall appoint township trustees, in case of resignation or death, if the board is in session at the time the vacancy occurs, but in the event that the board is not meeting, the appointment is to be made by the county auditor.

The construction placed on the law means that the appointment will be made by Phil Wilk, county auditor, because no regular session of the county board will be held this week and no special session is called. Both the county auditor and the county commissioners are republican and the trustee was a democrat.

The county board of education, which is composed of the twelve township trustees of the county, and which has been republican since the first of the year by

## FIRST OF 4 CLINICS TO BE HELD IN MILROY

Dr. James L. Stygall, Medical Director of Indiana Tuberculosis Association to be in Charge

### AT I. O. O. F. HALL FRIDAY

A tuberculosis clinic will be held at Milroy Friday, January 19, by Dr. James L. Stygall, medical director of the Indiana Tuberculosis association, under the auspices of the Rush County Tuberculosis association.

The clinic will be for the benefit of all persons who wish to be examined and will be one of a series of four that will be held in Rush county this year. Two will be held in Rushville and one in the northern part of the county. Up to this year all of the clinics have been held in Rushville.

The Milroy clinic will take place in the Odd Fellows hall and Dr. Stygall will be assisted by physicians of Milroy and vicinity. He will also have the assistance of Miss Grace Ewing, county Red Cross nurse, and Miss Elizabeth McWilliams, Rushville city nurse.

The clinics of the past have been highly successful and have been very beneficial in results. It is hoped by the local association that holding half of the clinics outside Rushville will reach many more people than before.

## DEATH TOLL IS INCREASED

Victim of Herrin Mine Massacre  
Succumbs in Chicago Hospital

Chicago, Jan. 15—The toll of the Herrin massacre was increased one today by the death here of Sydney J. Morrison, 25.

Morrison, a mine guard, was wounded in the battle which preceded the surrender of the Lester strip mine. Two operations failed to remove the bullet which lodged in his spine.

Morrison was married last Monday to Miss Rosella Lawson of Joliet who had nursed him during his long fight with paralysis.

## TWO JUDGES ON BENCH IN COURT

Judge Sparks Presides In Case Of  
Clevenger Brothers, Accused Of  
Stealing Meat

### VERDICT EXPECTED TODAY

Special Judge Himelick Sustains Verdict Against James Gillespie For False Pretense

Two judges were sitting on the bench in the circuit court today, with Judge Sparks hearing the case of the State against the two Clevenger brothers, and the Judge E. Ralph Himelick of Connersville, hearing a motion for a new trial in the case of the state against James Gillespie. The former case required a jury, and a verdict was expected late this afternoon.

Fred Clevenger, Jr., and his brother Earl Clevenger, were being tried today in the circuit court on a joint charge of petit larceny, and the jury was quickly obtained this morning to try the case.

The two young men are charged with stealing four beef tongues and a couple of slabs of smoked bacon from the slaughter house of the Weeks Meat Market, which is located southwest of Rushville.

The meat was found in the homes of the two, according to the evidence of the officers, but the young men stated that they were out hunting, and found the meat hidden in a tree, and took it to their homes.

The jury, which was impaneled to hear the case, is composed of George Seeley, Fent O. Browning, Harry McFartridge, Ed L. Reeves, Samuel Mathews, Jeff Leisure, Gilbert Cooley, Will Morris, Jake Wynn, Oliver Earnest, Oscar Rees, and Ben F. Reeve.

In an ante-room of the main court room, Judge Himelick passed judgment on James Gillespie, sustaining the verdict of the jury of \$50 fine and a sentence of 6 months on a charge of false pretense. The defendant was tried here December 19, on a charge of selling linen goods, which were said to be nothing more than cotton.

After sentence was passed, the attorneys presented a motion for a new trial, and after this was argued the judge denied the motion, and the defense then applied for an appeal to the supreme court, which was granted, and the defendant provided \$1,000 bond.

A special venire of ten names was drawn this morning for jury service on Tuesday, when the case of Miller against Miller, a \$10,000 alienation suit, is scheduled to be tried.

In the case heard in court Friday and Saturday of last week, before

## MEETINGS ROUND OUT FIRST WEEK

Crowds, Interest and Enthusiasm at  
Series of Services at Christian  
Church Sunday

### TO CONTINUE THIS WEEK

Sunday Night Sermon on "God's  
Radio Equipment" Original Treatment  
of New Subject

The crowds, enthusiasm and interest at the meetings in the Main Street Christian church Sunday closed a most successful week of evangelism. This coming week it is expected will register still greater progress.

Sunday morning the evangelist, E. Richard Edwards, made a plea for every soul to have its time of communion with God. Especially pleading for the respect and reverence due the Lord's Day, he illustrated advantages of giving the soul its change for worship and praise.

In the afternoon the great audience room was crowded with men and boys to hear the sermon-lecture. The description of the old homestead and the departure of a boy to take his place in the marts of trade was realistic to the point of stirring the great crowd of men with the holy memories of youth.

For the evening service the spacious auditorium was crowded. Director Cole with both orchestra and choir again demonstrated his ability to put a fine spirit into the program. Evangelist Edwards spoke on the theme of "God's Radio Equipment." It was an original and interesting treatment of an up-to-date interest and was handled in a way to hold the close attention of the crowd.

Everyone was pleased to have the Rev. L. E. Brown, pastor, present at the evening service after his trip to Logansport to preach for the congregation of the Rev. Mr. Edwards.

At the morning hour a beautiful duet was given by Mrs. Carl Beher and Mrs. Derby Green and at the evening service Mr. and Mrs. Harry Doty rendered a most acceptable duet. At this evening's meeting B. F. Miller will sing. The subject of the sermon tonight will be "Three Miracles as Three Types."

In the Sunday night sermon, the

## HOODED BAND SPREADS TERROR AT UNIVERSITY

Night Prowlers Garbed In Black Apparel On DePauw Campus,  
Frightening Students

### SEND NOTES TO TWO GIRLS

Greencastle, Ind., Jan. 15.—Mysterious hooded night prowlers garbed in black robes, tramping about the campus of DePauw University, have been terrorizing students and townspeople by their activities during the past few days.

The prowlers called themselves the 'Black Owl' and in spite of efforts of Greencastle police and a special body of DePauw men, they have evaded all efforts at capture.

"To foster a true democratic spirit in the university", it is set forward as the aim of the Black Owl, in letters given certain students on the campus.

Four figures comprise the group. They have been seen on several occasions and have always vanished in the darkness before the awe-stricken students could spread an alarm.

On one occasion the four hooded figures entered the home of a DePauw professor when a dramatic fraternity was meeting. They walked toward the center of the room and handed a note to Miss Virginia Graves a student from Los Angeles.

Next they appeared at the Alpha Chi sorority house where a note was handed Miss Virginia Baum. Then they went to the Phi Delta Theta house and warned LeRoy Armantrout of alleged unsatisfactory action on the campus.

## LEGISLATORS TO GET BACK TO WORK

State Law Makers Will Settle Down  
to Business After Week End  
Holiday With Home Folks

### MAY CURTAIL NEW BILLS

Supporters of Administration Will  
Follow Governor McCray's Suggestion on New Business

(By United Press)

Indianapolis, Ind., Jan. 15—Back from home with the advice of their constituents still fresh in their minds, members of the seventy-third legislature today prepared to settle down to business, consider committee reports and dispose of the large number of bills already thrown into the mills during the first ten days of the session.

In line with the recommendations of Governor McCray for a "closed season" on new legislation, there was a growing sentiment among the law makers to curtail their bill introducing activities. Many of them admitted, however, that they brought a few measures back to Indianapolis with them after spending the week-end adjournment in their various constituencies.

Supporters of the administration were counseling their colleagues against promiscuous introduction of bills and asking that this season be confined to consideration of important measures.

Indications were that the latter part of the session would grow dull and uninteresting with most of the important bills expected to be brought up already introduced or ready for introduction. After the big measures are disposed of the assembly drags listlessly.

The bill appropriating money for maintenance of the state government will be thrown into the house and taken up by committee probably during this week. The budget committee which received the requests of various state institutions and governmental departments and slashed them to the bone has completed its work. Having already received approval of the budget committee, the bill carrying both general and special

## WAS WHISPERED STUNT WOULD BE PULLED OFF

Witnesses Testify in Bastrop Inquiry That Rumor Was Heard  
Before Brutal Murder of Men

### SKIPWITH NOT DEPUTIZED

(By United Press)

Court House, Bastrop, La., Jan. 15—Word that the Ku Klux Klan is going to pull off the biggest stunt ever pulled off was whispered around Moorehouse parish two weeks before the brutal murder of Watt Daniels and Thomas Richards, witnesses testified in the hearings today.

J. Inabert, merchant of Mer Rouge, testified in the probe of the hooded terrorists, that he received this word from A. L. Fleming, former Mer Rouge citizen.

Inabert declared Fleming told him the stunts were pulled. Captain J. K. Skipwith, exalted cyclops of the Ku Klux Klan, sought the cloak of the parish officials under which to carry out the raids, the state showed today.

Fred Carpentier of Moorehouse parish, who has been named as a member of the Ku Klux Klan, was called as the first witness. He testified Skipwith asked to be deputized to make arrests of bootleggers and was told "alright", but never received an official commission.

The evidence was introduced to shatter Skipwith's claim that he and others were deputized when a raid was made on the home of Don Brad-dock, a farmer charged with bootlegging. Under the laws of the state this would make Skipwith open to a charge of breaking and entering homes in the night, a capital offense in Louisiana.

## MOST DAMAGE FROM WATER

Dwelling Owned and Occupied by  
Carl Hogle Catches Fire

A residence owned and occupied by Carl Hogle, 439 West Third street, was damaged by fire Sunday night, about 8:40 o'clock, to the possible extent of \$325, when the blaze was discovered in a closet underneath a stairway. The fire was making rapid headway, when discovered by the members of the family, and when the department arrived, it looked as if a serious fire would result, because of the closeness of the dwellings. The blaze was confined to the inside, and most of the damage resulted from water.

The owner of the place carried insurance on the building and contents, and the loss will be covered. The origin of the blaze is unknown.

## RANK WITH OTHER COUNTIES OF STATE

Children Examined in December  
Show 1,072 Defects, Report From  
Health Board Shows

### RECEIVED BY COUNTY NURSE

Miss Ewing Will Inform Parents  
Where Medical Supervision is  
Needed—321 Examined

A statistical report of the result of the Better Babies Conference in Rush county has been compiled by the state board of health and received here by Miss Grace Ewing, county Red Cross nurse, and the report summarizes the fact that out of the 321 children examined in Rush county, a total of 1,072 defects were found.

The examination of the children was held in Rush county from December 8 to 21, and practically every township was visited by the state workers.

A letter accompanied the report from Dr. Ada Schweitzer, head of the Infant Welfare division, in which she stated that the local work was satisfactory, and that the children in this county ranked along with the rest of the state. Some of the defects, included in the large list, were of minor consequence, although there were many children found with defects, which should be corrected.

A separate list was received by the local nurse in which children should be placed under medical supervision, and the nurse is required to inform the parents, and offer her assistance in correcting the defects.

Of the 321 children examined in Rush county, 169 of them were boys, and 152 were girls. Sixty-eight of them were given the vision tests, 32 the hearing test, and 243 were given the mental test. The various tests were given in proportion to the ages of the children.

In the list of defects found in this county, the report is headed with the list of physical and general defects, such as bad tonsils, adenoids and other general defects. Dental defects

## OHIO GUNMEN ARE BLAMED

Hired To Kill Man To Prevent Exposure Of Bootleggers

Pittsburg, Pa., Jan. 15.—Murder of Martin Burke, wealthy saloon-keeper, sentenced in Cleveland last week to serve 13 months in Atlanta penitentiary for violation of the liquor laws was blamed today on Ohio gunmen.

Police here declare they believed Burke was murdered to prevent an expose of gigantic bootlegging ring of which he was a member.

Burke, who was alleged to have made a million in bootleg-whiskey was shot and killed late last night by men who fired simultaneously as he opened the door of his home on South Fremont avenue.

The assassins are believed to be gunmen who were hired in Cleveland. A sedan in which the men were said to have made their escape are being sought.

## ORDERS NOT TO LET FRANCE HAVE COAL

German Coal Commissioner Prohibits Ruhr Operators From Providing Invaders With Fuel

### MONEY IS NOT ACCEPTABLE

French Instructed to Occupy District as Far as Dortmund as Result of German Attitude

(By United Press)

London, Jan. 15—The German coal commissioner in Berlin has prohibited the Ruhr operators from supplying the French with coal or coke even if paid for and dramatic retaliation by France is expected, according to dispatches received here today.

Paris, Jan. 15—Orders have been given to occupy the Ruhr as far as Dortmund as the result of the German refusal to accept the French coal production plan, it was announced today.

Berlin, Jan. 15—Bochum, where the Hugo Stinnes steel factory is located, was occupied by French troops this afternoon.

The invaders thus tightened their grip on the heart of the Ruhr industrial region. When the blue-clad police arrived at Bochum, all work in the city immediately stopped. This was done according to prearranged plans.

Bochum was seething with excitement. Communists in the streets were distributing leaflets, advocating war with France and demanding the resignation of Chancellor Cuno.

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Jan. 15.—French troops in the Ruhr moved on Bochum today.

Reports from the newly occupied zone said French artillery and infantry advanced from the little city of Kettwig upon the important industrial capital of the interests of Hugo Stinnes.

Occupation of Bochum, even more than seizure of Essen, will give the invaders a grip on one of the main arteries of German industry.

The great plants of Stinnes will come within the new French line, if Bochum is encircled.

France today increased her forces at Essen, and extended the new line of occupation to include Hartigan and Gelsenkirchen. Last night troops pushed northward to Kuppeldreh and Niederwienigern.

## TROOPS BATTLE FOR POSSESSION OF MEMEL

French and Lithuanians Wage War in City of Neutral Zone Under League of Nations

### HUNGARIANS CONCENTRATING

Berlin, Jan. 15.—French and Lithuanian troops battled in the heart of Memel for possession of the city today.

The Lithuanians, entering the city, drove back a handful of French troops who had entrenched themselves before the gates.

British and French warships were reported Saturday enroute to Memel to reinforce the French troops. Memel is a neutral zone under the league of nations. It is on the Prussian border, and is particularly desired by Lithuania, whose irregular troops are taking advantage of the Ruhr situation to attack.

Paris, Jan. 15.—Hungarian troops, bands of which have made excursions into Rumanian territory, are concentrating in the frontier, Premier Poincare was notified by the Rumanian minister here today.

Poincare asked the inter-allied military commission in Budapest to investigate the report.

All water and light bills, which are due the city treasurer, must be paid by the 20th of this month, according to Earl Conway, city treasurer. He stated that there are many consumers who have failed to pay their bill by the tenth, and the extra ten days will be given, but after that, all services will be discontinued unless paid.

## Blackheaded Pimples Quit With S. S. S.

**Why? Pimple-Poison Goes When Red-Blood-Cells Increase! S. S. S. Builds These Red-Blood-Cells.**

*The shame of a blemished face!*

That is what you need when you see pimples staring at you in the mirror. Black-headed pimples are worse! Eczema is worse yet! You can try everything under the sun—you'll find only one answer, more cell-power in your blood! The tremendous results, produced by an increase in red-blood-cells is one of the A. B. C.'s of medical science. Red-cells mean clear, pure rich blood. They mean clear, sunny, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatism impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1823, as one of the greatest blood-builders, blood-cleaners and system strengtheners ever produced. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

## GIVES BRITAIN AND JAPAN MOST POWER

Washington Naval Agreement Discussed By Admiral W. S. Sims, Speaking In New York Church

#### ORDERS WHEN WAR BROKE OUT

New York, Jan. 15.—The Washington naval agreement give Britain and Japan greater sea power than the United States, according to Rear Admiral W. S. Sims.

Speaking at Grace Methodist Church, Sims asserted that American "theoretically" rank below Britain and Japan because those nations have guns of heavier calibre. This, he declared, nullified the 5-5-3 tonnage ratio.

Furthermore, according to Sims, the Washington agreement is unimportant, because it does not control the building and arming of air fleets, which will figure largely in the next war.

At the outbreak of the war, Sims said, the orders for the American forces were to "go slow with the navy and do nothing with the army." "If it had not been for the British grand fleet keeping the German fleet off the high seas, you Americans would be learning to speak German today," he said.

#### Denial From Baker

Cleveland, Jan. 15.—Assertions by Admiral W. S. Sims that the orders at the outbreak of the world war was "to go slow with the navy and do nothing with the army" were denied here today by Newton D. Baker former secretary of war.

"I never heard of any such an order," Baker said. "Certainly nothing like it emanated from the war department. I do not know what Admiral Sims may have on his mind in making such a statement."

J. L. Thompson Of Oberlin, O., To Preach At Wesley M. E. Church

The revival meetings that have been in progress at the Wesley M. E. church during the past two weeks have been largely attended and fine interest is being shown. The revival entered its third week today, and beginning Tuesday night, the Rev. J. L. Thompson of Oberlin, Ohio will join with the pastor in preaching. The Rev. Mr. Thompson conducted a series of meetings in Rushville some years ago with great results.

The church is organized, it is announced to do intensive evangelistic work and results are expected. The pastor will preach tonight on the subject, "The Lost." The public is invited.

#### RESCUES FAMILY, MAY DIE

Chicago Man Burned Carrying Wife And Children To Safety

Chicago, Jan. 15.—Nicholas Scholli, 40 fought for his life today as the result of burns inflicted when he rescued his wife and three children from a fire which destroyed their home here.

Scholli awakened by the flames wrapped blankets around his wife and one child and carried them to the street. With his clothes in flames he returned to the bed room and carried the other two children to safety. Police believed the fire was of incendiary origin.

#### REVIVAL ENDS SUNDAY

The evangelistic services which have been so successful at the Salvation Army church, will come to an end Tuesday night when the Evangelist, Mr. McQueen will end his local engagement. Sunday afternoon and evening he delivered two fine sermons, which were well received by large audiences. At night, his subject was "He that being often reproved, hardenest his heart." The services tonight and Tuesday night will begin at 7:30 o'clock and everyone is welcome to attend.

ROUND-UP OF MINT  
BANDITS IS NEAR

Man Believed To Be Leaders Of Robbers Under Arrest In Chicago, But Denies Part

ANOTHER GANGSTER DEAD

Telephone Conversation Leads To Detention Of Daniel Culhane, Thought To Be Leader

Chicago, Jan. 15.—Round-up of the bandit gang who held up and escaped with \$200,000 from a government automobile in front of the Denver mint last month was believed near today.

One man, who police believe was the leader of the bandits, was under arrest here and the dead body of another member of the gang was found in Denver.

The man arrested here gave the name of Daniel Culhane. He was grilled throughout the night but denied any knowledge of the robbery. Police declared his description tallied exactly with that of Albert T. Hollywood alleged leader of the gang.

Shortly after Culhane's arrest Denver police discovered a frozen bullet-riddled body in an automobile in a garage in the Capitol Hill district of Denver. Authorities declared the man had been dead for several weeks.

A 30-30 rifle was found in the machine.

Marks on the dead man's clothes indicated he came from Chicago.

Culhane's arrest followed a tip from Kansas City that he had called long distance to an underworld character there and that during the conversation the Denver mint robbery was mentioned.

Culhane was also believed to have led the bandits who raided the Citizens Bank of Springfield, Mo., shot down a policeman and bank employee and escaped with \$20,000. The sus-

pect also denied participation in this robbery and asserted he had not been out of Chicago for three years.

He was arrested in his room at the Washington Hotel. An automatic pistol was found under the pillow and sewed in his vest were several money wrappers. He refused to explain these. Culhane declared he was a member of a million dollar gambling syndicate here. He carried little money.

Denver police asserted the discovery of the slain bandit's body resulted from a tip from Chicago. Authorities here denied they had communicated with the Denver police.

"We are sure we have the leader of the Denver gang in custody," Chief of Detective Michael Hughes declared. "We have wired Denver for photographs and thumb prints of Hollywood."

Hollywood was traced to this city following the Springfield hold up. It was discovered he had some dental work done in the Woods Building. After the Denver robbery, police learned Hollywood and "Dickey" Williams, another suspect were in Kansas City or Chicago.

Police denied they were looking for another suspect here but indicated they had information which they hoped would lead to arrests in other cities.

Another Kind of Club

The entrance of women into poli-  
tics has had a beneficial effect upon  
the country, but it has not gone far  
enough.

Going to the polls and voting at  
election time does not constitute the  
entire duty of the women in politics.  
Her first and prime object should be  
the selection of the best people avail-  
able in the primaries, in order that  
the candidates may be of such sal-  
lible and standing that the people  
will be assured competent and hon-  
est officials, regardless of which  
party wins.

There is no better way of doing  
this than by forming women's clubs  
for the investigation and discussion  
of the merits of the various people  
who seek a place on the party ticket.

**If I Could Repair Door Bells—**  
HOW often the sign, "Bell out  
of order," greets us at the  
door of otherwise well-kept homes.  
It is not an unusual thing for such  
signs to remain there a week or a  
month, an inconvenience to the vis-  
itor and tenant alike.

Repairing bells is not a difficult  
task. It usually requires tightening  
of a wire, or a new zinc, or a new  
dose of sal ammoniac. Still, such  
repairs usually run along without  
attention. If I could repair door  
bells I would say so with a Daily  
Republican Want Ad. My ad to-  
day would bring me results tomor-  
row, and I believe there are enough  
bells out of order in Rushville to  
keep me busy for a month.

If I were in doubt just how to  
word my ad, I'd phone No. 2111  
and ask for an Ad-Taker.

should be carefully scrutinized, and  
we know of no one who is better fit-  
ted to pass judgment upon a man's  
past than are the women who have  
benefitted or suffered from his acts.  
Women invariably judge a man  
from the standpoint of right and  
wrong and justice. Too many men  
are content to consider only that of  
policy and political expediency.

An Old Competitor Reviving

German shipbuilding concerns are  
working overtime in an effort to  
make up the deficiency in German  
tonnage caused by the war. In the  
latter part of last year German  
shipping lines bought back from  
England 130 ships, totaling 491,600  
tons, that had been handed over un-  
der the peace treaty. These facts  
serve to show the sort of competition  
that is being built up to put the  
American merchant marine out of  
business. Today England is our  
most formidable rival on the seas,  
but Germany is rapidly forging to  
the front. Unless the ship aid bill  
now pending in Congress is soon en-  
acted into law, the United States  
might as well surrender to the inevi-  
table, and hand over its ocean carry-  
ing trade to foreign vessels.

His Soul Goes Marching On

Speaking of the railroad situation,  
President Harding told Congress  
that "It was government operation  
which brought us to the very order  
of things against which we now re-  
bel, and we are still liquidating the  
costs of that supreme folly." No-  
body of candid mind will dispute  
that statement, but there are a lot  
of labor agitators who are still  
working for the adoption of the  
Plumb plan for buying the railroads  
with the money of all the people and  
operating them for the benefit of a  
few. Mr. Plumb himself is dead, but  
his economic heresies are still kept  
alive in radical circles.

LAWS SUGGESTED  
FOR OIL INDUSTRY

Federal Supervision May Result if  
Bill is Passed to Regulate Gas-  
oline Business

THREE POINTS ARE CITED

Proposal Includes Measure to Pre-  
vent Soaring Prices—Might be  
Declared Public Utility

By PAUL R. MALLON  
(U. P. Staff Correspondent)

Washington, Jan. 15—Federal su-  
pervision of the oil industry—in  
some manner similar to that in which  
the government now restrains the  
railroads through the interstate  
commerce commission—may be re-  
commended to congress by the spe-  
cial committee now investigating  
gasoline prices.

Some leaders in the probe believe  
this will prove the only method by  
which congress can legislate against  
soaring gasoline prices, it was  
learned today.

Though the program will not take  
definite form until the committee  
concludes its hearings in about three  
weeks, it is learned the following  
three points are being considered.

1—Government supervision of  
gasoline and oil prices through fur-  
ther tariff restrictions.

2—Absorption of the huge divi-  
dends now being declared by some  
oil companies in lower prices with-  
out restraining oil concerns from a  
"fair profit".

3—Lowering the cost of operating  
by amalgamation of many large  
gasoline and oil companies which  
are now separate legal entities  
though they are in truth closely in-  
terwoven by mutual stockholdings.

Legal experts who have attended  
the hearings admit that the present  
operations of large corporations  
may be "within the law". They be-  
lieve the government can proceed in  
no judicial way to obtain a lower  
cost to the consumer of gasoline.  
There is no way to reach the pres-  
ent situation unless congress moves

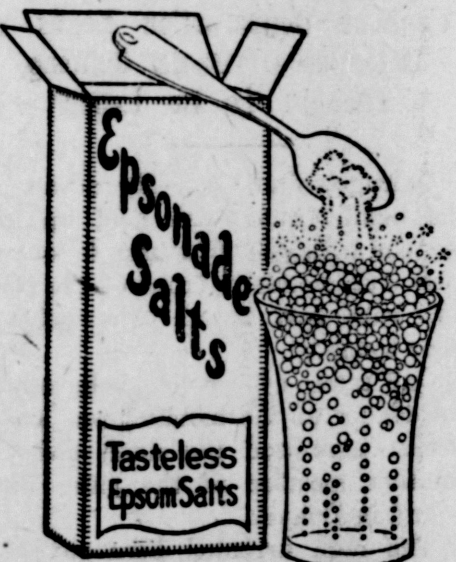

to regulate prices and distribution,  
they say.

The oil industry could be declared  
a public utility by congress and the  
government given the reins of con-  
trol.

Legislation to this end may be in-  
troduced in the senate before the end  
of the present session, it is thought.  
It will be impossible, however, to  
obtain any action on the proposal  
until the next session of congress.

Few Kind Words for Dempsey

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Jan. 15—Jack Dempsey will be criticized if he goes back to Europe and if he succeeds in getting a match with Carpentier and Beckett, he'll be tagged for the fire.

By this time the heavyweight champion ought to be hardened to prejudiced raps and he probably will not care.

There is no reason why he should not go to Europe and there is no reason why he should not fight Carpentier or Beckett.

Nothing appears in prospect for him in this country. He signed once to fight Harry Wills and didn't get a single offer from any promoters and the boxing commission will not let him fight anyone else.

As far as a bout with the British champion or the Frenchman is concerned—if they want to see it and pay good money for it, it is their business and it is Dempsey's business to take it.

Amidst all the rumpus and fuss being made about the "fixed fight" between Carpentier and Siki, the most sensible view in France seems to have been taken by M. Bernstein, the referee.

"If the fight was fixed for Carpentier to win and he didn't, it was a match and why all the commotion," he was quoted in a London paper

## WAS A LUCKY DAY SAYS W.G. BEATY

Popular Salesman Declares Tanlac Ended Stomach Trouble and Added 10 Pounds to Weight

"Since taking Tanlac, I have gained ten pounds and feel physically fit from head to foot," declared William G. Beaty, of 1145 Calumet Ave., Hammond, Ind., a popular salesman at Peaker's Market, on Holman Street.

"I was in Detroit during the industrial boom when everybody had a chance to work overtime. Well, sir, the long extra hours 'raised Cain' with my health and I got in a badly run-down condition. My appetite went back on me, I lost weight, and was suffering badly from sour stomach, gas, heartburn, severe headaches and dizziness. At night I would be restless and wide-awake for hours and next morning I went to work feeling tired and worn-out.

"Well, a good friend of mine told me I needed Tanlac, and sure enough, after taking five bottles, I am without an ache or pain, have a corking appetite, nerves like steel and am feeling just brimful of energy. It certainly was a lucky day for me when I got Tanlac."

Tanlac is for sale by all good druggists.

Over 35-million bottles sold.

## Hupmobile

Stands alone as the one really fine car that can be purchased at a price practically as low as that of cars which no one thinks of comparing with the Hupmobile in reliability, in long life, in low costs, and in brilliant performance.

"We are on the Square"

Bernstein said also that he heard Siki say to Carpentier during the fight:

"Don't hit me in the stomach, you hurt me."

He didn't consider that out of order, however, and said that in hundreds of fights he had heard similar remarks passed between the principals.

Danny Frush the glass-jawed English featherweight, seems to have had his heart restored since he returned home after a long stay in this country.

After his manager Tom McGinty had accused him of "taking a dive" when he was fighting Johnny Dundee for the New York championship and cut loose from him, Frush went back to London.

In his first fight before the home folks he knocked out Johnny Curley, supposed to be a good boy, with one punch, a right hook to the jaw in the first round.

Frush turned right around and challenged Eugene Criqui to meet him for the featherweight championship.

That doesn't speak very well for Criqui.

Billy Matthews, who lost his featherweight championship to Criqui, was given a medal by the French Boxing Federation for making a good showing.

It is a bad precedent to decorate champions for making a good showing, although the New York commission might hang one on Joe Lynch once in a while.

Matthews said after the fight that Criqui could never beat Johnny Dundee or Johnny Kilbane, because the Frenchman has bad hands.

If Criqui has bad hands, it is hard telling what would have happened to Matthews if he had good dukes, for the referee stopped the fight when the Englishman was in "dire distress"

Joe Beckett, the well known British "Count of Ten" is squaking about the attempts being made to match Siki and Carpentier again. He wants the first crack at either one and it isn't just clear why either one of them should hesitate to accommodate him.

## GARY BOOTLEG RING IS MOST POWERFUL

Judge William E. Dunn Says They are Making "Goats" of Him and Blaz Lucas in Probe

### FLAPPER QUEEN IS BLAMED

(By United Press)

Gary Ind, Jan 15—The Gary bootleg ring is the most powerful in the state and involves higher officials "than any one suspected", city Judge William N. Dunn, one of those indicted in connection with activities of the ring declared today.

"Reports from Indianapolis that 81 indictments against high officials in northern Indiana have been returned is just a start," Dunn declared.

Dunn and Blaz Lucas, his former partner, were the only indicted men whose names have been made public. "They are making goats of Lucas and me," Dunn charged. "I am blameless. I have no connection with the ring, except to fight it."

Indictments which are alleged to have resulted from information given by Agnes Szabo 16-year-old "queen of the bootleggers," are expected to be served in Gary Tuesday.

Agnes in her squalid home in the Hungarian section of South Bend, bragged of her career as a "flapper bootlegger" but denied giving information that resulted in the indictments.

## Hittin' 'Em and Missin' 'Em

There is one R. H. S. around here that can win games—that is Raleigh.

MAYBE THEY BELONG TO THE TRIPLE ALLIANCE

Fairview doesn't like to play with deuces wild, they turn loose with three at a time up there. What is more, they won all three of 'em Friday, knocking Arlington down in every case.

SOME PEOPLE CALL IT A SKIRT RAISER, SAL

Sally, who lives down near our alley, has asked Hittin' 'em a tough question. She wants to know why they call it a curtain raiser, before the big game, and what is it they call it, when there are three games in one night, because surely it couldn't be two curtain raisers, she argues. Well, Sal, ol' girl, that is a new one. All Hittin' 'em knows is, the first game, like that one up there at Fairview, which was played between the girls teams, he'd call an "Eye-Opener", before the "Curtain Raiser". If they had two games between boys teams before the big game, Hittin' 'em would call it "Too darn much basketball in one night". No Sal, that rule book which you bought doesn't say anything about "Curtain Raisers".

Some curtain raisers turn out to be hair raisers before they are finished, we might tell you Sally.

Say you high school basket squad, why not cut out missin' 'em and go to hittin' 'em?

### GOOD CHANCE FOR RUSHVILLE TO MEET MR. IHSAA

The Rushville basketball fans, bursting forth with undue jeers for the referee in the game last Friday night, came almost causing the local high school a great deal of trouble in the Indiana High School Athletic Association, according to Coach Jones.

Hittin' 'em don't want to take sides, but something must have been wrong, because it was the first time that any official was ever "razzed" like that in the local gymnasium. It might have been poor sportsmanship, but Hittin' 'em remembers that Rushville didn't get the "breaks" with this referee, either at Columbus or at Shelbyville. It wasn't because Rushville had a chance to win, but on account of the principal of the thing. Hittin' 'em remembers also last year when Rushville played at Columbus, and this referee was the official, that Columbus "razzed" him off the floor, and two policemen escorted him safely to his car after the game, but as far as Hittin' 'em knows, this matter wasn't taken up with the association. Even at that, Rushville fans should "hold in", because another outbreak will put us on the green carpet before Mr. Trester.

### SHOOTIN' 'EM, YOU DON'T KNOW 'EM LIKE WE DO

Shootin' 'em and Stoppin' 'em, the headline on the Indianapolis News sport page, under a caption, "Save it, Save it", has replied to a Connorsville fan, as follows:

A Connorsville fan cries to Shootin' 'em that it was not Hamilton, O., that defeated Connorsville, but Andrews, as forward with the Hamilton team, who scored 21 points. He adds that in his opinion 10 points is

## THREE FIVES ARE STILL UNDEFEATED

Michigan, Wisconsin and Iowa Emerge From Week-end Scrambles With Clean Records

### MICHIGAN THE STRONGEST

Wisconsin Adds Third Straight Victory by Running Over Maroons —Badgers Had Easy Game

By LINCOLN QUARBERG  
U. P. Staff Correspondent

Chicago, Jan. 15—Michigan, Wisconsin and Iowa emerged undefeated from the week-end scrambles for leading honors in the western conference basketball race.

Michigan, with two well-earned victories to its credit, has exhibited greatest strength to date. Forced to show their stuff Saturday night, the fighting Wolverines waded through Minnesota, clearly demonstrating they will be foremost bidders for the title.

Wisconsin added a third straight victory to her belt when she over-ran the Maroons Saturday night, but the Badgers met easy teams and their real strength is untried. The Michigan-Wisconsin contest on February 10 will be a real battle.

Michigan invades Iowa City tonight and the result will be one of the best early indicators of championship strength. Both teams have a right to be proud of their title hopes. Iowa, however, is not expected to stop the Wolverines, a more experienced team.

Purdue, 1922 conference champions will see their first action in the 1923 race tonight, when they meet Northwestern at Lafayette. Northwestern is going good, and has demonstrated scoring power, but the Boilermakers are believed to have the edge.

Illinois and Ohio State, though not serious contenders for the pennant, are certain to cause a lot of trouble before the season ends.

Michigan's experienced five of shooters, with keen eyes for the basket, and with a five man defense that has proven almost air tight, will be hard to stop. Present dope favors them to win the cup.

not an easy victory, sarcastically closing with an announcement that the referee didn't exactly live in Hamilton.

This is not the way any man on the Connorsville team feels about this and Shootin' 'em is willing to wager that even if a Connorsville player did feel that way he wouldn't cry about it.

### WONDER IF THEY LEFT ANY IN NEWCASTLE

The Newcastle Courier says Hittin' 'em was all wrong about the robbery of the Spiceland bank, and said it would have been a waste of time, because Spiceland "had all their jack with 'em". Policeman, do your duty.

## FIRST WOMAN CHIEF LOOKED ON AS MIDAS

Wild Scams Enacted in Kaw Indian Reservation When 2,000 Barrel Oil Well Is Found

### BIG ROYALTIES OFFERED

Kaw City, Okla., Jan. 15.—Lucy Tyiapi Eads, first woman chief of an Indian tribe was looked on as a modern Midas by Poor Lo, today.

She has turned the bleak hill-tops of the Kaw Indian reservation into gold. The poverty stricken cousins of the rich Osage Indians are being offered \$1,000 and more for royalties on the land which for generations has barely produced pasturage for their lean cattle.

Wild scenes were enacted throughout the reservation today following discovery of a 2,000 barrel oil well. Excitement ran high as scouts raced to be the first in the field and sleepy Indians were hauled from their beds to grasp bundles of money from those seeking leases. They remained blinking and unconvinced as the speculator dashed away to the next house.

But the Kaws feel assured that their new found fortunes are their rewards for selecting Lucy Tyiapi Eads as their chief.

numbered 306, defective eyesight 24, and no child examined had defective hearing.

A more concise table of the defects is also included in the report, in which each of the 1072 defects is given a classification by a system of organic trouble. The greatest number, 333, is listed under the heading, oral, dental and general.

Other classifications are as follows: eyes, defects 40; ears, 12; tonsils, enlarged, diseased, cryptic, etc., 197; adenoids 22; other head, face and neck, 28; enlarged glands, 51; bone defects, chest and back 29; heart defects, 26; lung defects, 83; abdomen defects, 24; extremities, 53; genitalia, 65; posture, 6; nutrition, disorders apparent, 1; incoordination muscles and nerves, 29; miscellaneous, 73.

The number of children ten percent below weight who need medical supervision are 42, according to the report.

### LEGISLATORS TO GET BACK TO WORK

cific appropriations is not expected to encounter much difficulty.

Jesse Eschbach, chairman of the budget committee, is recognized by members of the house as a dean among legislators because of his long term as presiding officer in the speaker's chair. His well known attitude toward reckless expenditures in the state virtually guaranteed speedy consideration of appropriations and general approval.

The only bill that has passed both houses thus far and received the signature of Governor McCray is the one appropriating \$100,000 to defray expenses of the members and employees of the session. This bill always is enacted at the beginning of every session.

Opponents of the primary election law still claimed there was some hope of repealing it. The repeal bills in both houses, however, still reposed in committees.

One of the measures considered at every session in recent years is expected to come forth soon. It would create a board of chiropractic examiners to put chiropractors on a level with medical doctors under state law.

There has not been a test vote in the house of representatives yet to determine how 52 to 48 republican majority will hold up. Party leaders are trying to keep the republicans in line in the belief that the first test will have the effect of determining future votes. The resentment among republican members of the lower house over committee assignments was reported to have subsided.

The spectre of a farm block in the legislature similar to the one which wielded so much influence in congress arose today with the threat of "big stock" tactics to force farm legislation through the assembly.

Forty-seven members of the lower house are farmers—nearly all of them actual dirt farmers. Organized for concerted action, they can dictate the actions of the house with the aid of a few members who represent farming constituencies.

These farmer-members of the

house will meet tonight to form a united front.

Out of the meeting will emerge the farm bloc, leaders in the movement declared. The small farmer membership of the senate will attend the meeting, but the law makers coming from strictly farming communities are expected to sympathize with the movement, although individually they frequently are listed as lawyers bankers or other professional men.

Party politics will be disregarded, it was said, as the legislators returned from a week-end adjournment. Thirty-two of the farmer members of the house are democrats. The others are republicans. By working together, however, as a group regardless of party, they can obtain legislation beneficial to the farmer particularly, it was said.

One of the representatives planning to attend the meeting said the interests of the farmer will be submerged in the general interests of all the people. He said "the affairs of the commonwealth will come first—those of the farmer second."

A matter likely to come before the attention of all members as well as the farmers, was a pamphlet placed on the desks this morning at the order of Governor McCray listing a number of suggestions on a petition from Benton county. The petition urged that a number of state departments be abolished and that other changes be made. It also carried answers of department heads involved as a means of presenting arguments on both sides.

one vote as seven democratic and five republican trustees were elected last November.

If a republican should be appointed to succeed Mr. Guffin, the members of the board would be equally divided and in case of a tie, the county superintendent of schools would have the deciding vote.

It was stated at the auditor's office today that no appointment would be made today and that any action taken would be withheld until after the Griffin funeral.

Services for the deceased trustee will be held at Shiloh church, two miles north of Mays, Tuesday afternoon at 1:30 o'clock and burial will take place in the cemetery at the church, which is in the vicinity of the Griffin farm.

The widow is the sole survivor. The deceased was an orphan and was taken from an orphan's home at the age of six years and reared by a family in northern Rush county. Mr. Guffin spent twenty-five years as a school teacher before taking up farming.

Members of the county board of education, County Superintendent Birney D. Farthing, County Attendance Officer James Miller and County Auditor Phil Wilk will attend the funeral in a body.

A resolutions committee composed of four township trustees Jesse Brook of Union, John C. Power of Anderson, J. Hampton Reeves of Posey and Henry W. Beckner of Jackson, has been appointed and will prepare resolutions to be read at the funeral.

### TWO JUDGES ON BENCH IN COURT

Continued from Page One

Judge Sparks, of Jesse Wilson against Norman Cain, a complaint to reform a farm lease, the evidence was completed and the arguments will be heard January 18.

The defendant Max Tarplee, against whom judgement was rendered in the case heard a few weeks ago, in which the City of Rushville was plaintiff, has filed a motion for a new trial, but no action has been taken.

The case of Edgar Johnston, et al., against Fred Barrows sent here from Fayette county, has again been venued from this county, and will be heard in Henry county.

### IF A FORD COULD TALK

I am nothing but a Ford coupe. I  
live in Rushville. My owner is a  
jolly good fellow and doesn't take  
much care of me. He lets anybody  
and everybody drive me. Here I am  
going to relate my experience one  
night when a young fellow drove me  
to an oyster supper about eighteen  
miles away. He and his girl com-  
panion started out like they were in  
a hurry. Poor me, they didn't know  
that it was hard on me and I don't  
suppose they cared. Everything  
went on smoothly for a while. After  
the supper was over and they were  
ready to start home they went a dif-  
ferent route. They drove me slower  
as luck would have it or that would  
have been the end of me.

We had gone about five miles when  
we came to a bridge that was out.  
It looked like a bridge covered with  
water. But alas! it was water with-  
out a bridge. Bang! I went into that  
hole so quick I was shocked dead  
still. I had dropped in a hole of  
water about three feet deep. The  
only way I could get out was back  
up, run down the stream, up on the  
bank, out through a hay field, on out  
into the road.

I only had two feet to turn around  
in. The driver tried to start me and  
I coughed and sputtered but I did  
my best because I didn't like that  
cold water up on my sides. He back-  
ed me up about forty times, got me  
turned around at last started me  
down the stream with the water up  
to the floor boards. The further we  
went the deeper we went into the  
water. The driver was scared white  
when he discovered but too late, that  
he was driving me in a gravel pit.  
His girl companion clutched his  
arm and groaned. Oh! But we dis-  
covered the water was but five feet  
deep.

My wires got wet, my lights went  
out and I began to cough. But that  
boy drove me on in the dark out of  
that pit, just missed another pit  
thirty feet deep, run over an old rot-  
ten straw stack, kept a going, run  
into a rail fence tore it down, run  
on into the road and started for  
home. He drove me four miles and  
came back to that awful death hole  
again. But he had experience enough  
not to run over that fickle bridge  
again.

When at last we found ourselves  
at home we had travelled about  
fifty-five miles in all of our daring  
trip. But I am just as good as  
over and I hope to last two years  
more. My owner ought to be proud  
of me.

## AMUSEMENTS

## Special At Mystic

"Learn while you laugh, and laugh while you learn."

This might have been the motto that Mark Twain kept on his desk pad while he wrote "A Connecticut Yankee in King Arthur's Court," which in film form is showing at the Mystic today and Tuesday as a special William Fox attraction.

But Mark Twain had no such idea. "A Connecticut Yankee", was not meant to throw ridicule upon the idea that the Middle Ages were a

better time than the present. But it teaches in spite of itself. The adventures of young Martin Cavendish among King Arthur's knights and ladies tell, better than all the history books, just what life in the Middle Ages was like—without plumbing, without telephone, without good roads.

"A Connecticut Yankee" has done more than any other book or play to prove that men are as chivalrous today as they were in the days "when Knights were bold."

## Marion Davies At Princess

Famed for its magic quality, the work of Marie Corelli, one of the world's noted novelists, is to be seen on the screen at the Princess today and Tuesday, where Marion Davies in "The Young Diana" will be presented. "The Young Diana," is one of Miss Corelli's most striking novels and it has been filmed with great elaborateness by Cosmopolitan Productions. The picture is released by Paramount.

Miss Davies in "The Young Diana" make obvious her versatility as an actress. Seen recently as a gay young "flapper" in "Enchantment" and as a demure Irish girl in "The Bride's Play," the star enacts in "The Young Diana" a part much dramatic intensity.

A noteworthy cast surrounds her including Forrest Stanley, Pedro de Cordoba, Maelyn Arbuckle and

Gypsy O'Brien. The picture was directed by Albert Capellani and Robert G. Vignola, two of the leading directors in the country.

## ACCIDENT AT RAIL CROSSING IS FATAL

Automobile Driven By Charles W.  
Griffin Center Township Trustee,  
Runs Into Train At Dunreith

### FAILS TO HEED WARNINGS

Injuries Sustained When Machine  
Turns Over Cause Death In An  
Hour—Successor To Be Named

Charles W. Griffin, age fifty-three years, new trustee of Center township, was fatally injured last Saturday afternoon at the Pennsylvania railroad crossing in Dunreith, when the automobile in which he was riding ran into a train as he was returning home from Newcastle.

The flagman was at the crossing, where the Pennsylvania railroad crossed the National Road, and signaled Mr. Griffin to stop, but he apparently did not see either the train or the flagman and his machine crashed head on into the coal car immediately back of the engine.

The automobile was hurled to one side and turned over and Mr. Griffin suffered internal injuries which resulted in his death about one hour later.

A dog which was a pet of Mr. Griffin's and was his almost constant companion, was riding in the machine at the time of the accident, but escaped without a scratch.

The deceased was elected trustee of Center township on the democratic ticket November 7, 1922, with a majority of eleven votes over his republican opponent Harvey M. Newhouse, losing the first precinct by twenty votes and winning the second one by thirty-one votes. Mr. Griffin took office January 1, this year.

The law provides that the county board of commissioners shall appoint township trustees, in case of resignation or death, if the board is in session at the time the vacancy occurs, but in the event that the board is not meeting, the appointment is to be made by the county auditor.

The construction placed on the law means that the appointment will be made by Phil Wilk, county auditor, because no regular session of the county board will be held this week and no special session is called. Both the county auditor and the county commissioners are republican and the trustee was a democrat.

The county board of education, which is composed of the twelve township trustees of the county, and which has been republican since the democratic first of the year by

## FIRST OF 4 CLINICS TO BE HELD IN MILROY

Dr. James L. Stygall, Medical Director of Indiana Tuberculosis Association to be in Charge

### AT I. O. O. F. HALL FRIDAY

A tuberculosis clinic will be held at Milroy Friday, January 19, by Dr. James L. Stygall, medical director of the Indiana Tuberculosis association, under the auspices of the Rush County Tuberculosis association.

The clinic will be for the benefit of all persons who wish to be examined and will be one of a series of four that will be held in Rush county this year. Two will be held in Rushville and one in the northern part of the county. Up to this year all of the clinics have been held in Rushville.

The Milroy clinic will take place in the Odd Fellows hall and Dr. Stygall will be assisted by physicians of Milroy and vicinity. He will also have the assistance of Miss Grace Ewing, county Red Cross nurse, and Miss Elizabeth McWilliams, Rushville city nurse.

The clinics of the past have been highly successful and have been very beneficial in results. It is hoped by the local association that holding half of the clinics outside Rushville will reach many more people than before.

## DEATH TOLL IS INCREASED

Victim of Herrin Mine Massacre  
Succumbs in Chicago Hospital

Chicago, Jan. 15—The toll of the Herrin massacre was increased one today by the death here of Sydney J. Morrison, 25.

Morrison, a mine guard, was wounded in the battle which preceded the surrender of the Lester strip mine. Two operations failed to remove the bullet which lodged in his spine.

Morrison was married last Monday to Miss Rosella Lawson of Joliet who had nursed him during his long fight with paralysis.

## TWO JUDGES ON BENCH IN COURT

Judge Sparks Presides In Case Of  
Clevenger Brothers, Accused Of  
Stealing Meat

### VERDICT EXPECTED TODAY

Special Judge Himelick Sustains Verdict Against James Gillespie For False Pretense

Two judges were sitting on the bench in the circuit court today, with Judge Sparks hearing the case of the State against the two Clevenger brothers, and the Judge E. Ralph Himelick of Connersville, hearing a motion for a new trial in the case of the state against James Gillespie. The former case required a jury, and a verdict was expected late this afternoon.

Fred Clevenger, Jr., and his brother Earl Clevenger, were being tried today in the circuit court on a joint charge of petit larceny, and the jury was quickly obtained this morning to try the case.

The two young men are charged with stealing four beef tongues and a couple of slabs of smoked bacon from the slaughter house of the Weeks Meat Market, which is located southwest of Rushville.

The meat was found in the homes of the two, according to the evidence of the officers, but the young men stated that they were out hunting, and found the meat hidden in a tree, and took it to their homes.

The jury, which was impaneled to hear the case, is composed of George Seeley, Fent O. Browning, Harry McFarridge, Ed. L. Reeves, Samuel Mathews, Jeff Leisure, Gilbert Cooley, Will Morris, Jake Wynn, Oliver Earnest, Oscar Rees, and Ben F. Reeve.

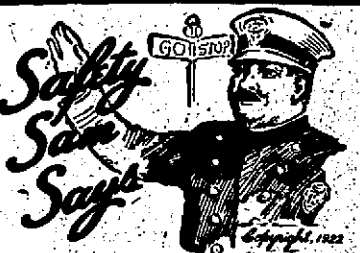

In an ante-room of the main court room, Judge Himelick passed judgment on James Gillespie, sustaining the verdict of the jury of \$50 fine and a sentence of 6 months on a charge of false pretense. The defendant was tried here December 19, on a charge of selling linen goods, which were said to be nothing more than cotton.

After sentence was passed, the attorneys presented a motion for a new trial, and after this was argued the judge denied the motion, and the defense then applied for an appeal to the supreme court, which was granted, and the defendant provided \$1,000 bond.

A special venire of ten names was drawn this morning for jury service on Tuesday, when the case of Miller against Miller, a \$10,000 alienation suit, is scheduled to be tried.

In the case heard in court Friday and Saturday of last week, before

## MEETINGS ROUND OUT FIRST WEEK

Crowds, Interest and Enthusiasm at  
Series of Services at Christian  
Church Sunday

### TO CONTINUE THIS WEEK

Sunday Night Sermon on "God's  
Radio Equipment" Original Treat-  
ment of New Subject

The crowds, enthusiasm and interest at the meetings in the Main Street Christian church Sunday closed a most successful week of evangelism. This coming week it is expected will register still greater progress.

Sunday morning the evangelist, E. Richard Edwards, made a plea for every soul to have its time of communion with God. Especially pleading for the respect and reverence due the Lord's Day, he illustrated advantages of giving the soul its change for worship and praise.

In the afternoon the great audience room was crowded with men and boys to hear the sermon-lecture. The description of the old homestead and the departure of a boy to take his place in the marts of trade was realistic to the point of stirring the great crowd of men with the holy memories of youth.

For the evening service the spacious auditorium was crowded. Director Cole with both orchestra and choir again demonstrated his ability to put a fine spirit into the program. Evangelist Edwards spoke on the theme of "God's Radio Equipment." It was an original and interesting treatment of an up-to-date interest, and was handled in a way to hold the close attention of the crowd.

Everyone was pleased to have the Rev. L. E. Brown, pastor, present at the evening service after his trip to Logansport to preach for the congregation of the Rev. Mr. Edwards.

At the morning hour a beautiful duet was given by Mrs. Carl Behr and Mrs. Derby Green and at the evening service Mr. and Mrs. Harry Doty rendered a most acceptable duet. At this evening's meeting B. F. Miller will sing. The subject of the sermon tonight will be "Three Miracles as Three Types."

In the Sunday night sermon, the

## HOODED BAND SPREADS TERROR AT UNIVERSITY

Night Prowlers Garbed In Black Ap-  
pear On DePauw Campus,  
Frightening Students

### SEND NOTES TO TWO GIRLS

(By United Press)  
Greencastle, Ind., Jan. 15—Mysterious hooded night prowlers garbed in black robes, tramping about the campus of DePauw University, have been terrorizing students and townspeople by their activities during the past few days.

The prowlers called themselves the 'Black Owl' and in spite of efforts of Greencastle police and a special body of DePauw men, they have evaded all efforts at capture.

"To foster a true democratic spirit in the university," it is set forward as the aim of the Black Owl, in letters given certain students on the campus.

Four figures comprise the group. They have been seen on several occasions and have always vanished in the darkness before the awe-stricken students could spread an alarm.

On one occasion the four hooded figures entered the home of a DePauw professor when a dramatic fraternity was meeting. They walked toward the center of the room and handed a note to Miss Virginia Graves a student from Los Angeles.

Next they appeared at the Alpha Chi sorority house where a note was handed Miss Virginia Baum. Then they went to the Phi Delta Theta house and warned LeRoy Armantrout of alleged unsatisfactory action on the campus.

## LEGISLATORS TO GET BACK TO WORK

State Law Makers Will Settle Down  
to Business After Week End  
Holiday With Home Folks

### MAY CURTAIL NEW BILLS

Supporters of Administration Will  
Follow Governor McCray's Sug-  
gestion on New Business

(By United Press)

Indianapolis, Ind., Jan. 15—Back from home with the advice of their constituents still fresh in their minds, members of the seventy-third legislature today prepared to settle down to business, consider committee reports and dispose of the large number of bills already thrown into the mills during the first ten days of the session.

In line with the recommendations of Governor McCray for a "closed season" on new legislation, there was a growing sentiment among the law makers to curtail their bill introducing activities. Many of them admitted, however, that they brought a few measures back to Indianapolis with them after spending the week-end adjournment in their various constituencies.

Supporters of the administration were counseling their colleagues against promiscuous introduction of bills and asking that this season be confined to consideration of important measures.

Indications were that the latter part of the session would grow dull and uninteresting with most of the important bills expected to be brought up already introduced or ready for introduction. After the big measures are disposed of the assembly drags listlessly.

The bill appropriating money for maintenance of the state government will be thrown into the house and taken up by committee probably during this week. The budget committee which received the requests of various state institutions and governmental departments and slashed them to the bone has completed its work. Having already received approval of the budget committee, the bill carrying both general and special

Before Brutal Murder of Men

### SKIPWITH NOT DEPUTIZED

(By United Press)

Court House, Bastrop, La., Jan. 15—Word that the Ku Klux Klan is going to pull off the biggest stunt ever pulled off was whispered around Moorehouse parish two weeks before the brutal murder of Watt Daniels and Thomas Richards, witnesses testified in the hearings today.

J. Inabert, merchant of Mer Rouge, testified in the probe of the hooded terrorists, that he received this word from A. L. Fleming, former Mer Rouge citizen.

Inabert declared Fleming told him the stunts were pulled. Captain J. K. Skipwith, exalted cyclops of the Ku Klux Klan, sought the cloak of the parish officials under which to carry out the raids, the state showed today.

Fred Carpentier of Moorehouse parish, who has been named as a member of the Ku Klux Klan, was called as the first witness. He testified Skipwith asked to be deputized to make arrests of bootleggers and was told 'alright', but never received an official commission.

The evidence was introduced to shatter Skipwith's claim that he and others were deputized when a raid was made on the home of Don Brad-dock, a farmer charged with bootlegging. Under the laws of the state this would make Skipwith open to a charge of breaking and entering homes in the night, a capital offense in Louisiana.

Dwelling Owned and Occupied by  
Carl Hogle Catches Fire

A residence owned and occupied by Carl Hogle, 439 West Third street, was damaged by fire Sunday night, about 8:40 o'clock, to the possible extent of \$325, when the blaze was discovered in a closet underneath a stairway. The fire was making rapid headway, when discovered by the members of the family, and when the department arrived, it looked as if a serious fire would result, because of the closeness of the dwellings. The blaze was confined to the inside, and most of the damage resulted from water.

The owner of the place carried insurance on the building and contents, and the loss will be covered. The origin of the blaze is unknown.

Miss Ewing Will Inform Parents  
Where Medical Supervision is  
Needed—321 Examined

A statistical report of the result of the Better Babies Conference in Rush county has been compiled by the state board of health and received here by Miss Grace Ewing, county Red Cross nurse, and the report summarizes the fact that out of the 321 children examined in Rush county a total of 1,072 defects were found.

The examination of the children was held in Rush county from December 8 to 21, and practically every township was visited by the state workers.

A letter accompanied the report from Dr. Ada Schweitzer, head of the Infant Welfare division, in which she stated that the local work was satisfactory, and that the children in this county ranked along with the rest of the state. Some of the defects, included in the large list, were of minor consequence, although there were many children found with defects, which should be corrected.

A separate list was received by the local nurse in which children should be placed under medical supervision, and the nurse is required to inform the parents, and offer her assistance in correcting the defects.

Of the 321 children examined in Rush county, 169 of them were boys, and 152 were girls. Sixty-eight of them were given the vision tests, 32 the hearing test, and 243 were given the mental test. The various tests were given in proportion to the ages of the children.

In the list of defects found in this county, the report is headed with the list of physical and general defects, such as bad tonsils, adenoids and other general defects. Dental defects

## OHIO GUNMEN ARE BLAMED

Hired To Kill Man To Prevent Ex-  
pose Of Bootleggers

Pittsburg, Pa., Jan. 15—Murder of Martin Burke, wealthy saloon-keeper, sentenced in Cleveland last week to serve 13 months in Atlanta penitentiary for violation of the liquor laws was blamed today on Ohio gunmen.

Police here declare they believed Burke was murdered to prevent an expose of gigantic bootlegging ring of which he was a member.

Burke, who was alleged to have made a million in bootleg whiskey was shot and killed late last night by men who fired simultaneously as he opened the door of his home on South Fremont avenue.

The assassins are believed to be gunmen who were hired in Cleveland. A sedan in which the men were said to have made their escape are being sought.

French Instructed to Occupy Dis-  
trict as Far as Dortmund as Re-  
sult of German Attitude

(By United Press)

London, Jan. 15—The German coal commissioner in Berlin has prohibited Ruhr operators from supplying the French with coal or coke even if paid for and dramatic retaliation by France is expected, according to dispatches received here today.

Paris, Jan. 15—Orders have been given to occupy the Ruhr as far as Dortmund as the result of the German refusal to accept the French coal production plan, it was announced today.

Berlin, Jan. 15—Bochum, where the Hugo Stinnes steel factory is located, was occupied by French troops this afternoon.

The invaders thus tightened their grip on the heart of the Ruhr industrial region. When the blue-clad police arrived at Bochum, all work in the city immediately stopped. This was done according to prearranged plans.

Bochum was seething with excitement. Communists in the streets were distributing leaflets, advocating war with France and demanding the resignation of Chancellor Cuno.

By CARL D. GROAT

(U. P. Staff Correspondent)

Berlin, Jan. 15—French troops in the Ruhr moved on Bochum today.

Reports from the newly occupied zone said French artillery and infantry advanced from the little city of Kettwig upon the important industrial capital of the interests of Hugo Stinnes.

Occupation of Bochum, even more than seizure of Essen, will give the invaders a grip on one of the main arteries of German industry.

The great plants of Stinnes will come within the new French line, if Bochum is encircled.

France today increased her forces at Essen, and extended the new line of occupation to include Hartigan and Gelsenkirchen. Last night troops pushed northward to Kupperdreh and Niederwengern.

## TROOPS BATTLE FOR POSSESSION OF MEMEL

French and Lithuanians Wage War in  
City of Neutral Zone Under  
League of Nations

### HUNGARIANS CONCENTRATING

Berlin, Jan. 15—French and Lithuanian troops battled in the heart of Memel for possession of the city today.

The Lithuanians, entering the city, drove back a handful of French troops who had entrenched themselves before the gates.

British and French warships were reported Saturday enroute to Memel to reinforce the French troops. Memel is a neutral zone under the league of nations. It is on the Prussian border, and is particularly desired by Lithuania, whose irregular troops are taking advantage of the Ruhr situation to attack.

Paris, Jan. 15—Hungarian troops, bands of which have made excursions into Rumanian territory, are concentrating in the frontier. Premier Poincare was notified by the Rumanian minister here today.

Poincare asked the inter-allied military commission in Budapest to investigate the report.

## Blackheaded Pimples Quit With S.S.S.

Why? Pimple-Poison Goes Where Red Blood-Cells Increase! S.S.S. Builds Red-Blood-Cells.

You can be sure of this, nature has no substitute for red-blood-cells. Every blood can't live in the red rivers of your blood as long as there are enough rich red-blood-cells in it. More red-blood-cells!

The shame of a blemished face!

That is what you need when you see pimples staring at you in the mirror. Black-headed pimples are worse! Eczema is worse yet! You can't try everything under the sun—you'll find only one answer, more cell-power in your blood! The tremendous results produced by an increase in red-blood-cells is one of the A. B. C.'s of medical science. Red-cells mean clear, pure rich blood. They mean clear, sunny, lovable complexion. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatism, impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S.S.S. will build them for you. S.S.S. has been known since 1823, as one of the greatest blood-builders, blood-purifiers and system strengtheners ever produced. S.S.S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

## GIVES BRITAIN AND JAPAN MOST POWER

Washington Naval Agreement Discussed By Admiral W. S. Sims, Speaking in New York Church

## ORDERS WHEN WAR BROKE OUT

New York, Jan. 15.—The Washington naval agreement give Britain and Japan greater sea power than the United States, according to Rear Admiral W. S. Sims.

Speaking at Grace Methodist Church, Sims asserted that American "theoretically" rank below Britain and Japan because those nations have guns of heavier calibre. This, he declared, nullified the 5-5-3 tonnage ratio.

Furthermore, according to Sims, the Washington agreement is unimportant, because it does not control the building and arming of air fleets, which will figure largely in the next war.

At the outbreak of the war, Sims said, the orders for the American forces were to "go slow with the navy and do nothing with the army."

"If it had not been for the British grand fleet keeping the German fleet off the high seas, you Americans would be learning to speak German today," he said.

## Denial From Baker

Cleveland, Jan. 15.—Assertions by Admiral W. S. Sims that the orders at the outbreak of the world war was "to go slow with the navy and do nothing with the army" were denied here today by Newton D. Baker, former secretary of war.

"I never heard of any such an order," Baker said. "Certainly nothing like it emanated from the war department. I do not know what Admiral Sims may have on his mind in making such a statement."

J. L. Thompson of Oberlin, O., To Preach At Wesley M. E. Church

The revival meetings that have been in progress at the Wesley M. E. church during the past two weeks have been largely attended and fine interest is being shown. The revival entered its third week today, and beginning Tuesday night, the Rev. J. L. Thompson of Oberlin, Ohio will join with the pastor in preaching. The Rev. Mr. Thompson conducted a series of meetings in Rushville some years ago with great results. The church is organized, it is announced to do intensive evangelistic work and results are expected. The pastor will preach tonight on the subject, "The Lost." The public is invited.

Chicago Man Burned Carrying Wife And Children To Safety

Chicago, Jan. 15.—Nicholas Scholli, 40 fought for his life today as the result of burns inflicted when he rescued his wife and three children from a fire which destroyed their home here.

Scholli awakened by the flames wrapped blankets around his wife and one child and carried them to the street. With his clothes in flames he returned to the bed room and carried the other two children to safety. Police believed the fire was of incendiary origin.

## REVIVAL ENDS SUNDAY

The evangelistic services which have been so successful at the Salvation Army church, will come to an end Tuesday night when the Evangelist, Mr. McQueen will end his local engagement. Sunday afternoon and evening he delivered two fine sermons, which were well received by large audiences. At night, his subject was "He that being often reproved, hardeneth his heart." The services tonight and Tuesday night will begin at 7:30 o'clock and every one is welcome to attend.

## Few Kind Words for Dempsey

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Jan. 15—Jack Dempsey will be criticized if he goes back to Europe and if he succeeds in getting a match with Carpentier and Beckett, he'll be tagged for the fire.

By this time the heavyweight champion ought to be hardened to prejudiced raps and he probably will not care.

There is no reason why he should not go to Europe and there is no reason why he should not fight Carpentier or Beckett.

Nothing appears in prospect for him in this country. He signed once to fight Harry Wills and didn't get a single offer from any promoters and the boxing commission will not let him fight anyone else.

As far as a bout with the British champion or the Frenchman is concerned—if they want to see it and pay good money for it, it is their business and it is Dempsey's business to take it.

Amidst all the rumpus and fuss being made about the "fixed fight" between Carpentier and Siki, the most sensible view in France seems to have been taken by M. Bernstein, the referee.

"If the fight was fixed for Carpentier to win and he didn't, it was a match and why all the commotion," he was quoted in a London paper.

Popular Salesman Declares Tanlac Ended Stomach Trouble and Added 10 Pounds to Weight

"Since taking Tanlac, I have gained ten pounds and feel physically fit from head to foot," declared William G. Beaty, of 1145 Calumet Ave., Hammond, Ind., a popular salesman at Peaker's Market, on Holman Street.

"I was in Detroit during the industrial boom when everybody had a chance to work overtime. Well, sir, the long extra hours 'raised Cain' with my health and I got in a badly run-down condition. My appetite went back on me, I lost weight, and was suffering badly from sour stomach, gas, heartburn, severe headaches and dizziness. At night I would be restless and wide-awake for hours and next morning I went to work feeling tired and worn-out.

"Well, a good friend of mine told me I needed Tanlac, and sure enough, after taking five bottles, I am without an ache or pain, have a corking appetite, nerves like steel and am feeling just brimful of energy. It certainly was a lucky day for me when I got Tanlac."

Tanlac is for sale by all good druggists.

Sally, who lives down near our alley, has asked Hittin' 'em a tough question. She wants to know why they call it a curtain raiser, before the big game, and what is it they call it, when there are three games in one night, because surely it couldn't be two curtain raisers, she argues. Well, Sal, ol' girl, that is a new one. All Hittin' 'em knows is the first game, like that one up there at Fairview, which was played between the girls teams, he'd call an "Eye-Opener", before the "Curtain Raiser". If they had two games between boys teams before the big game, Hittin' 'em would call it "Too darn much basketball in one night". No Sal, that rule book which you bought doesn't say anything about "Curtain Raisers".

TO MEET MR. IHSAA

The Rushville basketball fans, bursting forth with undue jeers for the referee in the game last Friday night, came almost causing the local high school a great deal of trouble in the Indiana High School Athletic Association, according to Coach Jones. Hittin' 'em don't want to take sides, but something must have been wrong, because it was the first time that any official was ever "razed" like that in the local gymnasium. It might have been poor sportsmanship, but Hittin' 'em remembers that Rushville didn't get the "breaks" with this referee, either at Columbus or at Shelbyville. It wasn't because Rushville had a chance to win, but on account of the principal of the thing. Hittin' 'em remembers also last year when Rushville played at Columbus, and this referee was the official, that Columbus "razed" him off the floor, and two policemen escorted him safely to his car after the game, but as far as Hittin' 'em knows, this matter wasn't taken up with the association. Even at that, Rushville fans should "hold in", because another outbreak "will put us on the green carpet before Mr. Trester."

SHOOTIN' 'EM, YOU DON'T  
KNOW 'EM LIKE WE DO

Shootin' 'em and Stoppin' 'em, the headliner on the Indianapolis News sport page, under a caption, "Save it, Save it," has replied to a Connersville fan, as follows:

A Connersville fan writes to Shootin' 'em that it was not Hamilton, O., that defeated Connersville, but Andrews, as scored with the Hamilton team, who scored 21 points. He adds that in his opinion 10 points is

THREE FIVES ARE  
STILL UNDEFEATEDMichigan, Wisconsin and Iowa  
Emerge From Week-end Scrambles  
With Clean Records

## MICHIGAN THE STRONGEST

Wisconsin Adds Third Straight Victory  
by Running Over Maroons  
—Badgers Had Easy Game

By LINCOLN QUARBERG

U. P. Staff Correspondent  
Chicago, Jan. 15—Michigan, Wisconsin and Iowa emerged undefeated from the week-end scrambles for leading honors in the western conference basketball race.

Michigan, with two well-earned victories to its credit, has exhibited greatest strength to date. Forced to show their stuff Saturday night, the fighting Wolverines waded through Minnesota, clearly demonstrating they will be foremost bidders for the title.

Wisconsin added a third straight victory to her belt when she over-ran the Maroons Saturday night, but the Badgers met easy teams and their real strength is untried. The Michigan-Wisconsin contest on February 10 will be a real battle.

Michigan invades Iowa City tonight and the result will be one of the best early indicators of championship strength. Both teams have a right to be proud of their title hopes. Iowa, however, is not expected to stop the Wolverines, a more experienced team.

Purdue, 1922 conference champions will see their first action in the 1923 race tonight, when they meet Northwestern at Lafayette. Northwestern is going good, and has demonstrated scoring power, but the Boilermakers are believed to have the edge.

Illinois and Ohio State, though not serious contenders for the pennant, are certain to cause a lot of trouble before the season ends.

Michigan's experienced five of shooters, with keen eyes for the basket, and with a five-man defense that has proven almost air tight, will be hard to stop. Present dope favors them to win the cup.

Not an easy victory, sarcastically closing with an announcement that the referee didn't exactly live in Hamilton.

This is not the way any man on the Connersville team feels about this and Shootin' 'em is willing to wager that even if a Connersville player did feel that way he wouldn't cry about it.

WONDER IF THEY LEFT  
ANY IN NEWCASTLE

The Newcastle Courier says Hittin' 'em was all wrong about the robbery of the Spiceland bank, and said it would have been a waste of time, because Spiceland "had" all their jack with 'em. Policeman, do your duty.

## FIRST WOMAN CHIEF LOOKED ON AS MIDAS

Wild Scenes Enacted in Kaw Indian Reservation When 2,000 Barrel Oil Well Is Found

### BIG ROYALTIES OFFERED

Kaw City, Okla., Jan. 15.—Lucy Tyap Eads, first woman chief of an Indian tribe was looked on as a modern Midas by Poor Lo, today.

She has turned the bleak hill-tops of the Kaw Indian reservation into gold. The poverty stricken cousins of the rich Osage Indians were being offered \$1,000 and more for royalties on the land which for generations has barely produced pasturage for their lean cattle.

Wild scenes were enacted throughout the reservation today following discovery of a 2,000 barrel oil well. Excitement ran high as scouts raced to be the first in the field and sleepy Indians were hauled from their beds to grasp bundles of money from those seeking leases. They remained blinking and unconvinced as the speculators dashed away to the next house.

But the Kaws feel assured that their new found fortunes are their rewards for selecting Lucy Tyap Eads as their chief.

numbered 306, defective eyesight 24, and no child examined had defective hearing.

A more concise table of the defects is also included in the report, in which each of the 1072 defects is given a classification by a system of organic trouble. The greatest number, 333, is listed under the heading, oral, dental and general.

Other classifications are as follows: eyes, defects 40; ears, 12; tonsils, enlarged, diseased, cryptic, etc., 197; adenoids 22; other head, face and neck, 28; enlarged glands, 51; bone defects, chest and back 29; heart defects, 26; lung defects, 83; abdomen defects, 24; extremities, 53; genitalia, 65; posture, 6; nutrition, disorders apparent, 1; incoordination muscles and nerves, 29; miscellaneous, 73.

The number of children ten percent below weight who need medical supervision are 42, according to the report.

### LEGISLATORS TO GET BACK TO WORK

Continued from Page One  
cific appropriations is not expected to encounter much difficulty.

Jesse Eschbach, chairman of the budget committee, is recognized by members of the house as a dean among legislators because of his long term as presiding officer in the speaker's chair. His well known attitude toward reckless expenditures in the state virtually guaranteed speedy consideration of appropriations and general approval.

The only bill that has passed both houses thus far and received the signature of Governor McCray is the one appropriating \$100,000 to defray expenses of the members and employees of the session. This bill always is enacted at the beginning of every session.

Opponents of the primary election law still claimed there was some hope of repealing it. The repeal bills in both houses, however, still reposed in committees.

One of the measures considered at every session in recent years is expected to come forth soon. It would create a board of chiropractic examiners to put chiropractors on a level with medical doctors under state law.

There has not been a test vote in the house of representatives yet to determine how 52 to 48 republican majority will hold up. Party leaders are trying to keep the republicans in line in the belief that the first test will have the effect of determining future votes. The resentment among republican members of the lower house over committee assignments was reported to have subsided.

The spectre of a farm block in the legislature similar to the one which wielded so much influence in congress arose today with the threat of "big stock" tactics to force farm legislation through the assembly.

Forty-seven members of the lower house are farmers—nearly all of them actual dirt farmers. Organized for concerted action, they can dictate the actions of the house with the aid of a few members who represent farming constituencies.

house will meet tonight to form a united front.

Out of the meeting will emerge the farm bloc, leaders in the movement declared. The small farmer membership of the senate will attend the meeting, but the law makers coming from strictly farming communities are expected to sympathize with the movement, although individually they frequently are listed as lawyers bankers or other professional men.

Party politics will be disregarded, it was said, as the legislators returned from a week-end adjournment. Thirty-two of the farmer members of the house are democrats. The others are republicans. By working together, however, as a group regardless of party, they can obtain legislation beneficial to the farmer particularly, it was said.

One of the representatives planning to attend the meeting said the interests of the farmer will be submerged in the general interests of all the people. He said "the affairs of the commonwealth will come first—those of the farmer second."

A matter likely to come before the attention of all members as well as the farmers, was a pamphlet placed on the desks this morning at the order of Governor McCray listing a number of suggestions on a petition from Benton county. The petition urged that a number of state departments be abolished and that other changes be made. It also carried answers of department heads involved as a means of presenting arguments on both sides.

one vote as seven democratic and five republican trustees were elected last November.

If a republican should be appointed to succeed Mr. Griffin, the members of the board would be equally divided and in case of a tie, the county superintendent of schools would have the deciding vote.

It was stated at the auditor's office today that no appointment would be made today and that any action taken would be withheld until after the Griffin funeral.

Services for the deceased trustee will be held at Shiloh church, two miles north of Mays, Tuesday afternoon at 1:30 o'clock and burial will take place in the cemetery at the church, which is in the vicinity of the Griffin farm.

The widow is the sole survivor. The deceased was an orphan and was taken from an orphan's home at the age of six years and reared by a family in northern Rush county. Mr. Griffin spent twenty-five years as a school teacher before taking up farming.

Members of the county board of education, County Superintendent Birney D. Farthing, County Attendance Officer James Miller and County Auditor Phil Wilk will attend the funeral in a body.

A resolutions committee composed of four township trustees Jesse Brook of Union, John C. Power of Anderson, J. Hampton Reeves of Posey and Henry W. Beckner of Jackson, has been appointed and will prepare resolutions to be read at the funeral.

### TWO JUDGES ON BENCH IN COURT

Continued from Page One  
Judge Sparks, of Jesse Wilson against Norman Cain, a complaint to reform a farm lease, the evidence was completed and the arguments will be heard January 18.

The defendant Max Tarplee, against whom judgement was rendered in the case heard a few weeks ago, in which the City of Rushville was plaintiff, has filed a motion for a new trial, but no action has been taken.

The case of Edgar Johnston, et al., against Fred Barrows sent here from Fayette county, has again been venued from this county, and will be heard in Henry county.

In this connection, he referred to the greatest sermon ever preached when Peter converted 3,000 persons. Now, he commented, the ratio is 3,000 sermons for one convert.

### IF A FORD COULD TALK

I am nothing but a Ford coupe. I live in Rushville. My owner is a jolly good fellow and doesn't take much care of me. He lets anybody and everybody drive me. Here I am going to relate my experience one night when a young fellow drove me to an oyster supper about eighteen miles away. He and his girl companion started out like they were in a hurry. Poor me, they didn't know that it was hard on me and I don't suppose they cared. Everything went on smoothly for a while. After the supper was over and they were ready to start home they went a different route. They drove me slower as luck would have it or that would have been the end of me.

We had gone about five miles when we came to a bridge that was out. It looked like a bridge covered with water. But alas! it was water without a bridge. Bang! I went into that hole so quick I was shocked dead still. I had dropped in a hole of water about three feet deep. The only way I could get out was back up, run down the stream, up on the bank, out through a hay field, on out into the road.

I only had two feet to turn around in. The driver tried to start me and I coughed and spluttered but I did my best because I didn't like that cold water up on my sides. He backed me up about forty times, got me turned around at last started me down the stream with the water up to the floor boards. The further we went the deeper we went into the water. The driver was scared white when he discovered but too late, that he was driving me in a gravel pit. His girl companion clutched his arm and groaned, Oh! But we discovered the water was but five feet deep.

My wires got wet, my lights went out and I began to cough. But that boy drove me on in the dark out of that pit, just missed another pit thirty feet deep, ran over an old rotten straw stack, kept a going, run into a rail fence tore it down, run on into the road and started for home. He drove me four miles and came back to that awful death hole again. But he had experience enough not to run over that fickle bridge again.

When at last we found ourselves at home we had travelled about fifty-five miles in all of our daring trip. But I am just as good as ever and I hope to last two years more. My owner ought to be proud of me.

### Special At Mystic

"Learn while you laugh, and laugh while you learn."

This might have been the motto that Mark Twain kept on his desk pad while he wrote "A Connecticut Yankee in King Arthur's Court," which in film form is showing at the Mystic today and Tuesday as a special William Fox attraction.

But Mark Twain had no such idea. "A Connecticut Yankee" was not meant to throw ridicule upon the idea that the Middle Ages were a

better time than the present. But it teaches in spite of itself. The adventures of young Martin Cavendish among King Arthur's knights and ladies tell, better than all the history books, just what life in the Middle Ages was like—without plumbing, without telephone, without good roads.

"A Connecticut Yankee" has done more than any other book or play to prove that men are as chivalrous today as they were in the days "when Knights were bold."

### Marion Davies At Princess

Famed for its "magic quality," the work of Marie Corelli, one of the world's noted novelists, is to be seen on the screen at the Princess today and Tuesday, where Marion Davies in "The Young Diana" will be presented. "The Young Diana" is one of Miss Corelli's most striking novels and it has been filmed with great elaborateness by Cosmopolitan Productions. The picture is released by Paramount.

Miss Davies in "The Young Diana" make obvious her versatility as an actress. Seen recently as a gay young "flapper" in "Enchantment" and as a demure Irish girl in "The Bride's Play," the star enacts in "The Young Diana" a part much dramatic intensity.

A noteworthy cast surrounds her including Forrest Stanley, Pedro de Cordoba, Maelyn Arbuckle and

Gypsy O'Brien. The picture was directed by Albert Capellani and Robert G. Vignola, two of the leading directors in the country.
